

Designed for You, Crafted for the Earth

Choosing Hotel Polaris means embracing a stay rooted in innovation, sustainability, and holistic well-being. We design our guest spaces using low-impact materials like repurposed wood fibers, Oeko-Tex certified textiles, and low-VOC finishes, all while reducing waste and energy through long-lasting design and smart resource systems.

Together, we're redefining hospitality—with purpose, one stay at a time.

Healthy Interiors

Materials certified to be free of harmful VOCs. Certifications such as Oeko-Tex® and GreenGuard help maintain indoor air quality across guestroom surfaces and finishes.

Materials Sourcing

Materials incorporate repurposed wood fibers, recycled materials, and industry waste. Reducing reliance on virgin resources while supporting performance requirements.

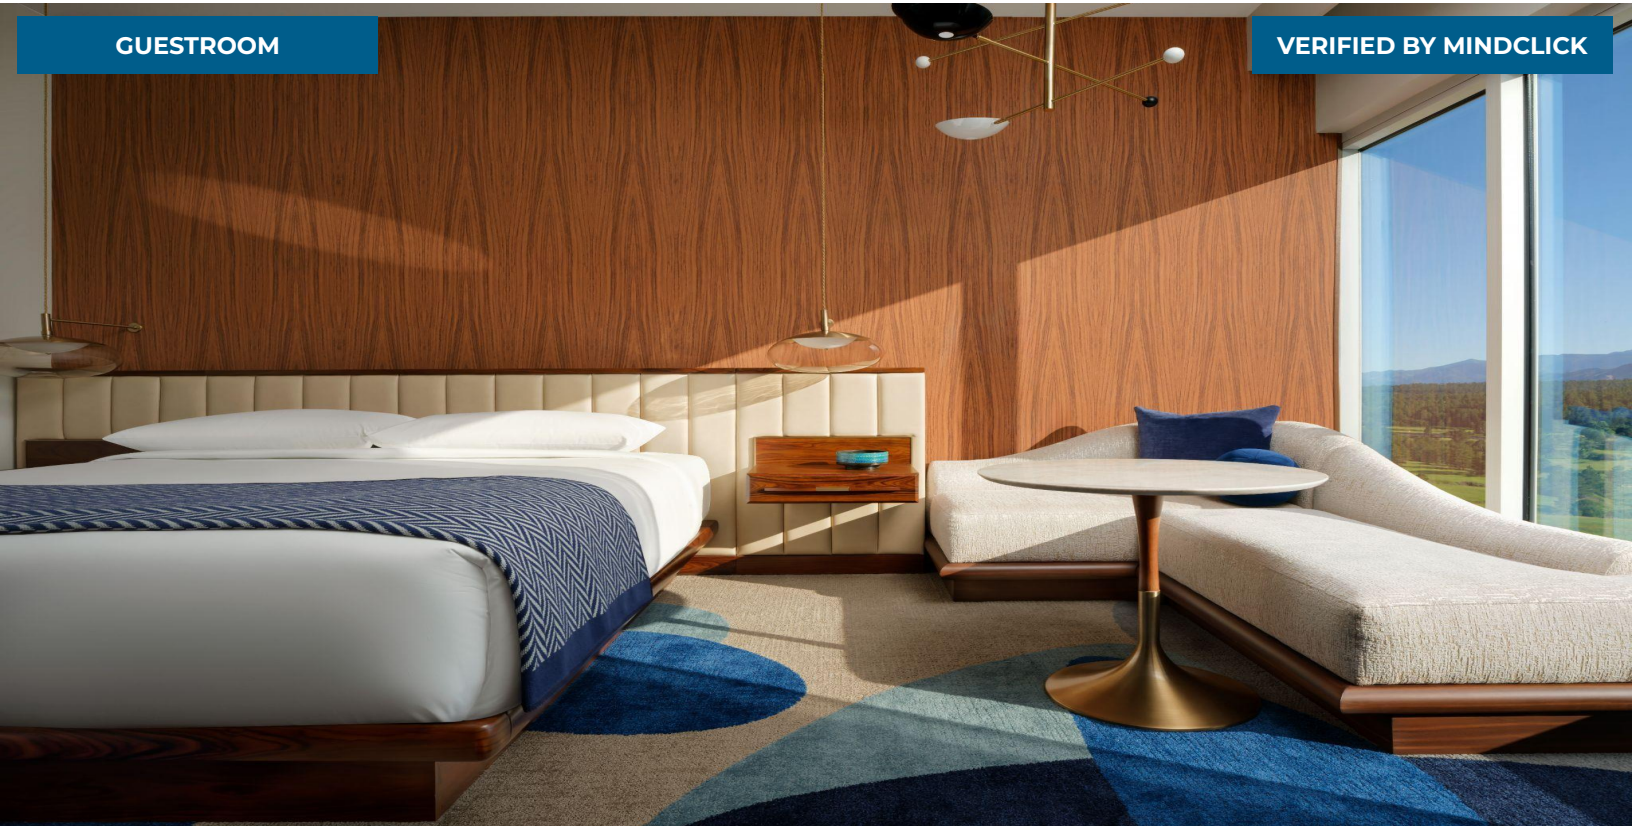

Circularity

Reusable and recyclable materials, recycled-content packaging, and post-consumer recycling initiatives such as PaintCare®. These elements help minimize waste and support end-of-use recovery.

GUESTROOM

VERIFIED BY MINDCLICK

Headboard

Composed of **70%** repurposed **wood fibers**.

Packaged in **92%** **plant-based** materials.

Ceiling Paint

Greenguard certified to meet harmful **VOCs** limits to maintain **healthy indoor** air quality.

Participated in **PaintCare®** since 2009, recycling post-consumer paint.

Carpet

Composed of **27%** **recycled materials**

Green Label Plus certified to maintain healthy indoor air quality

Window Treatment - Sheer

Reusable and **recyclable** fabric at end of use.

Oeko-Tex certified **free** of harmful **VOCs** to maintain **healthy indoor air** quality.

Window Treatment - Blackout

100% **recyclable/reusable packaging** minimized to reduced material usage.

Oeko-Tex certified **free** of harmful **VOCs** to maintain healthy indoor air quality.
